

DIGI-PHOTO Metallic

Description	Print	Applications
The structure of MME series DIGI-PHOTO Metallic is similar to RC photo paper. The base paper is coated on both sides with polyethylene resin. Its luster metallic surface reminiscent of silver halide metallic papers. It produces luminous photographic image quality with full saturation, high contrast and sharp detail.	<ul style="list-style-type: none"> > HP Indigo > Konica Minolta AccurioPress C83hc 	<ul style="list-style-type: none"> Wedding albums Photographic Works Business Brochures Art books, Catalogues Desktop calendars Tickets

■ Physical properties

ITEM	MME-230P single side	MME-240D double side					
Basis weight(g/m ²)	228±5	234±5					
Thickness(um)	230±10	240±10					

Availabilities	Certificates
Sheets	320*464mm,250sheets/pack
Sheets	750*530mm,250sheets/pack

Additional sizes and dimensions on request

Best printing results achieved in a standard climate of 23°C and 50% relative humidity. For problem-free running, always store the product in original packaging and protect it from direct sunlight and moisture. Before using our media, check its suitability on your printer and for your planned application. We can assume no liability resulting from technical changes in printers and/or inks. Changes in the product design due to technical further developments will not be announced in advance.
