

FJ-230

Description	Print	Applications
The structure of Fine Silky Photo Paper FJ-230 paper is similar to RC photo paper. The base paper is coated on both sides with polyethylene resin. It is equipped with a special ink absorption coating. This allows carefree printing on HP Indigo press as well as on some of the latest dry toner printer. The special structure produces photo-quality prints that are water-resistant and free of whitebreaks without lamination. Therefore, a wide variety of applications can be realized on FJ-230.	<ul style="list-style-type: none"> > HP Indigo printing system > Konica Minolta AccurioPress C83hc 	<ul style="list-style-type: none"> Photo books (incl. layflat binding) Photo prints Greeting cards Cook books Menu cards Business cards High-quality brochures

■ Physical properties

ITEM	FJ-230						
Basis weight(g/m ²)	223±5						
Thickness(um)	230±10						

Availabilities	Certificates
Sheets	320*464mm,100sheets/pack
Sheets	750*530mm,100sheets/pack

Additional sizes and dimensions on request

Best printing results achieved in a standard climate of 23°C and 50% relative humidity. For problem-free running, always store the product in original packaging and protect it from direct sunlight and moisture. Before using our media, check its suitability on your printer and for your planned application. We can assume no liability resulting from technical changes in printers and/or inks. Changes in the product design due to technical further developments will not be announced in advance.
