

## Water Resistant Matte PVC Sticker

### Description

PVC material is highly flexible and conformable to curved or irregular surfaces, making them ideal for applications like vehicle wraps, curved bottles, or textured surfaces.. Suitable for various types of color inkjet printers, with good color reproduction. Their combination of strength, aesthetics, and functionality makes them a preferred option for high-performance labeling and branding.

### Print

universally printable with all common inkjet label printers

- > dye ink
- > pigment ink

### Applications

> designed for commonly used labeling materials in manufacturing, logistics, retail, and medical fields, particularly suitable for information labeling of high-tech products

### Physical properties

ITEM	WRPVC-80MAD					
Basis weight(g/m <sup>2</sup> )	310±10					
Thickness(microns)	290±10					

### Availabilities

#### Sheets

A4, A3, 8.5\*11", 11\*17"

Additional sizes and dimensions on request

Best printing results achieved in a standard climate of 23°C and 50% relative humidity. For problem-free running, always store the product in original packaging and protect it from direct sunlight and moisture. Before using our media, check its suitability on your printer and for your planned application. We can assume no liability resulting from technical changes in printers and/or inks. Changes in the product design due to technical further developments will not be announced in advance.
